

CHARITY SCHOOL OF NURSING

450 S. Claiborne Avenue
New Orleans, LA 70112
(504) 571-1270
www.dcc.edu

To Whom it May Concern,

Our students are required to do annual TB screenings. They have the option to do blood work or the skin test. Many students choose to do the blood work because they have had a positive skin test in the past or because of the accuracy of blood tests over skin tests. Please give this student the Quantiferon Gold TB blood test as part of our health requirement for admission into our school.

All students should be aware that TB blood tests will only be given at the clinic Monday through Friday prior to 3pm.

Sincerely,

Stacey Thompson, MA
Executive Assistant to the Dean
