Notes: *only 6 cr. hrs. needed in math for completion of the ASLT. All math courses listed are degree requirements for the B.S. in Biology at the University of New Orleans. A student must choose to take 6 credit hours of math and may take the other math requirement after transfer. If student chooses only to take 6 cr. hrs. in math, then student must take additional science course without taking lab to complete the ASLT. Student should not exceed 60 credit hours. ONLY 60 credit hours maximum allowed for transfer to UNO from a community college.

*** Check catalog of transfer institution for specific course recommendations, depending on anticipated major.**

Completion of the AALT/ASLT degree guarantees that the student has met, in full, all lower division general education requirements at the receiving Louisiana public university. Graduates transferring with the transfer degree will have junior status. Courses or GPA requirements for specific majors, departments, or schools are not automatically satisfied by an AALT/ASLT degree.
