

Process Instrumentation and Control

*Are you interested
in a career in
the process
instrumentation
and control industry?*

**Highly-qualified technicians are in heavy demand
for the process industry!**

**Delgado is now offering training in *Instrumentation and Control*
for the process industries developed with input from many industry partners.**

Delgado provides classroom instruction, computer simulation and practical hands-on, real-world experience to prepare students for employment in the high-demand, high-skill, high-wage field of process instrumentation and control. The training also includes chemical and fire safety-codes and standards and general plant operations, while emphasizing safe and efficient work practices and basic occupational and employability skills.
