

RAFFLE TO HELP RAISE FUNDS TO CLEAN, BEAUTIFY AND STOCK CITY PARK POND

Classes from a variety of programs at Delgado Community College are joining efforts to restore the pond that is a central feature, and an important part of the natural ecosystem, of Delgado's City Park Campus.

The pond, which meanders through the center of the campus to provide both a beautiful part of the landscaping and a home to various flora and fauna, suffered damage from Hurricanes Katrina and Rita, as did much of the campus. Despite some wonderful efforts to clean the pond to date, there still remains a lot of work to be done.

To help raise the funds to purchase fish and plants, as well as repair the aeration system, to once again make the pond a beautiful and sustainable feature of the campus, more than 150 students are selling tickets for a "Restore the Pond" 50/50 raffle. Raffle tickets will be on sale at tables on the City Park Campus 9 a.m. – 3 p.m. and 5 – 6 p.m. on April 1-2, 2009. Half of the proceeds from ticket sales will go to restore the pond, and half will be given as a cash prize to one lucky winner whose raffle ticket number is drawn at 1 p.m. on Friday, April 3. Raffle tickets cost \$1 each.

Funds raised will, among other assistance, help purchase fish, irises and other plant life for the pond. Among the classes participating in the pond restoration project are: Management (project planning), Business (marketing), Biology (maintenance) and Horticulture (planting).

Buy as many tickets as possible to help "free nemo" into the restored pond, and increase your chance to win the cash you need to cover tuition, books or other college fees!

For more information, contact Fred Tuhro at ftuhro@dcc.edu.
