

Delgado Community College
Course Complete Book Program

1. Delgado Course Complete is a program that gives online access to digital course materials to students to have available on the first day of class, rather than having to go to the bookstore to purchase. We include the cost for course materials in the tuition and fees, which will be included in the SCA course costs.
2. There is an option to opt-out of the Delgado Course Complete program. If the course is being taught on your campus by your faculty credentialed by Delgado, you may wish to opt out of the program. If the course is taught by Delgado faculty, the students will need the books required by Delgado for the course in which they are enrolled.
3. Opting out will have to be done on an individual student basis by the student in their Delgado student account (LoLA.)
4. Students who are enrolled in multiple courses cannot choose to opt-out of some classes and opt-in others. The Delgado Course Complete program is designed to be an all-in or all-out solution to bring affordability to campus.
